# COMBINE

## **Consulting portfolio/brief portrait:**

combine Consulting is a management consultancy that offers a wide range of consulting services on every aspect of commercial used real estate. With more than 60 years of consulting expertise, the range of services offered by combine Consulting goes beyond strategic consulting and includes the development of future-proof office and buildings concepts and modern working environments.

## **The company's consulting portfolio also includes:**

- CRE (Corporate Real Estate) Strategy Consulting
- CRE Management
- Strategic and organisational building planning
- Designing new working environments
- Development of flexible office concepts
- Location strategies
- Building concepts
- Innovative working and organisational solutions.
- Interior design
- Economic expertise at board level
- Change management at all hierarchical levels
- Project management/user representation
- Interior design
- Working environment and design concepts

Clients include national and international corporations, medium-sized companies and public institutions. More than 90 professionals with a range of educational backgrounds (economists, architects, engineers, social scientists, change managers, interior designers) work for combine Consulting at the locations in Berlin, Düsseldorf, Hamburg and Munich.
